

Faculty Position in Metabolism Research

Children's Medical Center Research Institute (CRI) at the University of Texas Southwestern Medical Center in Dallas, TX seeks applications for **tenure-track faculty positions in metabolism research**. Outstanding investigators at any rank will be considered. Appointment rank will be commensurate with academic accomplishments and experience. Candidates must have a Ph.D., M.D. or equivalent degree and the ability to direct independently-funded research programs. Areas of specific research interest include human diseases and other processes regulated by cellular metabolism (e.g. development, immune function, cancer and other diseases). Faculty recruited through this mechanism will join CRI's Genetic and Metabolic Disease Program (GMDP), directed by Dr. Ralph DeBerardinis. Highlights of the GMDP include:

- A robust basic research environment dedicated to understanding the genetic and metabolic basis of human disease.
- Integration with clinical programs in genetic and metabolic diseases at Children's Medical Center, providing outstanding opportunities for gene discovery, translational research and therapeutic trials.
- A state-of-the-art mass spectrometry facility dedicated to metabolomics and isotope tracing.

UT Southwestern Medical Center has a long and distinguished history of excellence in disease-related basic science research, particularly in metabolism. CRI, founded in 2011 as a joint venture between UT Southwestern and Children's Medical Center of Dallas and directed by Sean J. Morrison, Ph.D., is recruiting outstanding individuals dedicated to solving fundamental problems in biology and disease. CRI is a dynamic, stimulating, and highly collaborative environment focusing on stem cell biology, cancer, and the genetic and metabolic basis of human disease.

CRI is committed to diversity, equity and inclusion. We encourage applicants from groups underrepresented in biomedical sciences (<https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-031.html>) to apply. Individuals may self-identify within their cover letter. This information is optional and will be used by the search committee to promote consideration of applicants from underrepresented minorities.

Apply [here](#) to submit your CV and 3-page summary of past accomplishments and research plans. Separately, arrange for three references to submit their letters of support to CRIApplicants@utsouthwestern.edu. The deadline for applications and supporting letters is October 15, 2023.

Consideration may be given to applicants seeking less than a full-time schedule. Appointment rank will be commensurate with academic accomplishments and experience.

This position is security-sensitive and subject to Texas Education Code 51.215, which authorizes UT Southwestern to obtain criminal history record information.

UT Southwestern Medical Center is committed to an educational and working environment that provides equal opportunity to all members of the University community. In accordance with federal and state law, the University prohibits unlawful discrimination, including harassment, on the basis of: race; color; religion; national origin; sex; including sexual harassment; age; disability; genetic information; citizenship status; and protected veteran status. In addition, it is UT Southwestern policy to prohibit discrimination on the basis of sexual orientation, gender identity, or gender expression.
